TECHBASE CONSULTANT SERVICES

TECHBASE STEM ACADEMY

Coding · Robotics · Digital Skills

Online & onsite · Nationwide

CODING · ROBOTICS · DIGITAL SKILLS

A Real Head-Start in Tech, for Every Age.

A hands-on training programme for children and teens (ages 8 to adult), delivered online or onsite, anywhere in Nigeria.

11	Online	Anywhere	Ages 8+
Courses to choose from	& onsite	in Nigeria	to adult

ABOUT US

Real Instructors. Real Skills.

Techbase Consultant Services runs a dedicated STEM Academy teaching coding, robotics and digital skills to children and teenagers: live, mentor-led and practical.

We take learners from their very first line of code to real, working projects: a website, a game, or a robot that moves and responds.

"Small groups. Real mentors. Projects your child can actually show off."

472

Free practice lessons and projects online, across 8 Academy courses (techbaseng.github.io)

4

Core live training tracks, with 11 courses in the full catalogue

9

Partner schools and organisations we have worked with

WHY TECHBASE

Why Learners Choose Us

1

Mentor-Led Classes

Small groups taught live by qualified instructors, never a pre-recorded video dump.

2

Real Progression

A genuine curriculum from Scratch to Python to Robotics, not a one-off workshop.

3

Delivered Anywhere

Learn online from anywhere, or onsite at a location of your choice, nationwide.

4

Proven Track Record

Trusted by 9 schools and organisations and by families across Nigeria for hands-on STEM training.

AGE-BASED ROADMAP

Your Child's Learning Journey

Learners join the track that fits their age, then progress along the path. Ages follow the makers' own guidance where it exists.

Scratch Programming

8+

Ages 8–16

Block-based coding basics

Micro:bit Robotics

8+

Ages 8–14

Code that controls real hardware

Web Development

10+

Ages 10+

HTML, CSS & JavaScript

Python Programming

10+

Ages 10+

Real-world applications

Mobile Apps

10+

Ages 10+ (App Inventor)

Android Studio from age 12

Advanced Track

13+

Ages 13+

Java · C/C++ · Arduino · AI

Also available at any age: Digital & Productivity Skills (Microsoft Word, Excel & PowerPoint)

CORE PROGRAMME

Our Learning Tracks

Scratch Programming

Ages 8–16

Block-based coding fundamentals: logic, loops, events, games and animation. 35 free practice projects online.

Web Development

Ages 10+

HTML, CSS & JavaScript: building and styling real, working websites. 153 free practice lessons online.

Python Programming

Ages 10+

Core programming concepts and Python syntax for real applications. 45 free practice lessons online.

Robotics (Micro:bit)

Ages 8–14

Robotics fundamentals with MakeCode block programming and a Starter Kit. 123 free micro:bit projects online.

More Courses We Offer

Mobile App Development

App Inventor (ages 10+): build real Android apps. Android Studio with Kotlin (ages 12+): 72 free lessons online.

Digital & Productivity Skills

Microsoft Word, Excel, PowerPoint and Office essentials. Any age.

More Programming Languages

Java Programming and C / C++ Programming (ages 13+).

More Robotics & Hardware

Arduino Robotics (ages 13+) and Practical Robotics with the Freenove kit (ages 10+): 44 free projects online.

Emerging Technology

AI & Machine Learning Foundations (ages 13+).

Don't See Your Track?

Ask us. We tailor custom courses for schools, organisations and individuals too.

DELIVERY

Class Format & What's Needed

ONLINE CLASSES

Live, instructor-led virtual sessions, from anywhere with an internet connection.

- A laptop running at least Windows 10
- Stable internet access
- A micro:bit Starter Kit for the Robotics track. Order early; learners can start on the free simulator meanwhile.

ONSITE CLASSES

In-person, hands-on sessions at any location you choose, nationwide.

- A laptop running at least Windows 10 (per learner)
- A micro:bit Starter Kit for the Robotics track, provided or sourced for you
- Pricing discussed individually, based on location and logistics

Certificate of proficiency on completion. Schools that cannot supply enough laptops can ask us about laptop provision for the duration of the training.

INVESTMENT

Simple, Transparent Pricing

ONLINE TRAINING

₦100,000

per learner, per 20-hour session block

ONSITE TRAINING

Custom quote

Base fee plus location and logistics costs, agreed with each client individually.

Onsite note

We deliver onsite training to any location, priced on the same ₦100,000 / 20-hour base, plus transportation, venue and equipment costs specific to your location, confirmed before class begins.

SAVE MORE

Family & Group Discounts

We reward families and groups who learn together. The discounts stack.

30% OFF

Joint / Family Class

Register 2 or more students on the same learning track through the same parent or guardian: 30% off every additional student. Applies to online and onsite classes.

+10% MORE

Group Bookings: 10+ Students

When a parent, school or community gathers 10 or more students in one location for the same track, every student gets an extra 10% off, stacked on the 30% family discount for a combined 40% off.

UP TO 40% OFF PER STUDENT · GROUPS OF 10+

Refer a school, family or organisation: when a client you refer enrols, you receive 10% commission on the total cost of their training.

SEE IT IN ACTION

Worked Pricing Example

1 student

online, Robotics track

₦100,000

₦100,000 for one 20-hour block

2 siblings

same track, same parent

₦170,000

₦100,000 + ₦70,000

(30% off the 2nd child)

Group of 12

one location, same track

₦750,000

₦90,000 + (11 × ₦60,000)

(10% off the first, 40% off the rest)

Figures above are illustrative; your final quote is confirmed at registration.

GETTING STARTED

How to Enrol

There is no formal application, just a conversation.

1

Contact us

WhatsApp, call, email or the form on our website.

2

Tell us your track

Preferred course(s), online or onsite, learner age(s) and how many students together.

3

Get your quote

Confirmed price with any discount, plus a suitable schedule.

4

Start training

Get set up and begin, with a certificate of proficiency at the end.

Office hours: 8AM to 5PM, Monday to Friday · Moniya, Ibadan, Oyo State, Nigeria
